OFFICE OF THE SECRETARY TO THE GOVERNOR OF MADRAS.

NOTIFICATION.

Madras, the 11th November 1938

No. 12.—The following notification from the *Gazette of India*, dated 5th November 1938, is republished:—

OFFICE OF THE PRIVATE SECRETARY TO THE VICEROY.

New Delhi, the 3rd November 1938.

No. 130-H.—His Excellency the Viceroy has been pleased to confer the Indian Police Medal on the following officer:—

Name of officer and his rank, and statement of services for which the decoration has been conferred.

MADRAS.

Chakkalingam Muthukrishna Dass Ramaswami Dass Sub-Inspector of Police.—Three notorious Kallar warrantees armed with guns and spears were, in the current year, committing crimes in Periyakulam Subdivision of the Madura district and terrorising the villagers. Special efforts were made to round up this gang but without success. On 17th May 1938 information reached Sub-Inspector Ramaswami Dass that the gang was in Sellamarathupatti village. Taking one head constable and one constable, he sent immediately to apprehend the gang. The Sub-Inspector was armed with a revolver and the constable with a musket. The Police party reached Sellamarathupatti at night, but, as there was no trace of the gang, they lay in wait in the house of an informant until about 10-30 a.m. on 19th May 1938, when the warrantees suddenly approached the village munsif's house and attempted to extort money from him in their usual violent manner. The Police party immediately proceeded to the scene, but as soon as they were observed one of the warrantees fired a shot at them which fortunately missed. The Sub-Inspector promptly replied with his revolver and the head constable and the constable grappled with one of the warrantees who defended himself with a knife, wounding the head constable. The Sub-Inspector then disabled the warrantee by shooting him in the leg and disarmed and arrested him. The two other warrantees escaped and were captured later.

Sub-Inspector Rameswami Dass is a young officer of only 4½ years service. He displayed fine leadership and courage.

N.B.—This award is made for gallantry under regulation (a) (i) of regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector.

J. G. LAITHWAITE,
Private Secretary to the Viceroy.

The following circular from the Accountant-General (T.M. Section), Madras, to all Heads of Offices (Central and Provincial) and all Treasury Officers (including Coorg, Travancore and Bangalore), dated Madras, the 5th November 1938, No. T.M. 15-24-812/38-39, is published :—

[Discontinuance of the monthly schedules of income-tax deductions.]

I have the honour to state that the Central Board of Revenue has decided to discontinue the use of the monthly schedules of income-tax deductions (Form I.T. 47) which are now attached to the pay bills with reference to the instructions contained in this office circular No. T.M. 23-75-2823, dated 8th November 1934. Consequently the schedules need not be attached to the pay bills to be prepared in the future.

2. The decision also involves the resumption of the submission of the "annual returns" prescribed in section 21 of the Indian Income-tax Act, 1922 and the rules framed thereunder. The returns have to be furnished to the Income-tax Officers by the 30th of April every year by the following authorities, viz.:—

(a) Civil audit officers for all gazetted officers and others *who draw their pay from audit offices on separate bills*; and also for all pensioners who draw their pension from audit offices.

(b) Treasury Officers for all gazetted officers and others who draw their pay from treasuries on separate bills without countersignature; and also for all pensioners who draw their pensions from treasuries.

(c) Heads of civil offices for all non-gazetted officers whose pay is drawn on establishment bills countersigned by the head of office.

(d) Forest disbursing officers and Public Works Department disbursing officers in cases where direct payment from treasuries is not made for themselves and their establishments.

3. The first annual returns should be furnished by the 30th April 1939 for the twelve months, 1st April 1938 to 31st March 1939. The return should be compiled in two parts, the first part dealing with "Federal (Central) emoluments" and the second with "other emoluments." Where an emolument is partly federal and partly provincial as much of it as is federal will be shown in the federal part of the annual return and the balance in the other part. The preparation of the return may be facilitated by the use of registers in Form I.T. 48. Separate registers should, as far as possible, be maintained to show income derived from "Federal sources" and "other sources." Postings should be made monthly after the disbursements for the month are completed in the case of members paid on establishment bills and at the time of passing a bill at the treasury in cases where the Treasury Officer has to render the annual return. The totals of the entries in the register will then readily furnish the figures required for compiling the annual statement. Pending final orders as regards the supply of forms I.T. 48, the number required for immediate purposes may be obtained from the nearest Income-tax Officer.

* 4. On the introduction of the revised procedure the Treasury Officers should arrange to get back from the Income-tax Officer, V Circle, the schedules for 1938-39 relating to gazetted officers and other officers drawing pay from their treasuries in respect of whom they have to furnish annual returns. If complete information is not obtained from the

* Paragraph 4 to Treasury Officers only.

schedules, the officers concerned should be addressed to furnish the required particulars through the treasuries where pay for the period concerned was drawn.

On transfer of such officers from one district to another an extract from the register in Form I.T. 48 relating to the year should be attached to the last pay certificate.

In regard to pensions the Treasury Officers are even now submitting annual returns, and these should be arranged to be prepared in two parts in future.

For the distribution of the tax collected as between "Federal" and "other emoluments" the Treasury Officers will be mainly guided by the classification indicated by the drawing officers in the bills for pay and allowances. In respect of tax received in cash due to reassessments by Income-tax Officers the classifications indicated in the chalans should be adopted.

P. K. WATTAL,
Accountant-General.

When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4 When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Executive Engineer's office on the date fixed by written intimation to him. He shall forthwith, upon intimation being given to him by the Executive Engineer of acceptance of his tender, make a security deposit of Rupees one thousand two hundred and fifty only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the standard preliminary specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest.

Failure to attend the Executive Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorised to enter into contracts on behalf of Government.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Vennar Division. A copy of the set of contract documents can also be had on payment of Rs. 10 for each set.

6 The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., whereirom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender, notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, alter acceptance of a contract rate, pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conveyance, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant
(4) Water and lighting
(5) Cleaning up during progress and for delivery.

(6) Accidents.
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Vennar Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and re-writing.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and, if any such alterations are made, the tender will be void

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate rates of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
	PER CENT.
Three months	25
Six months	75
Nine months	100

NOTE.—The periods to be entered in column (1) for the purpose of defining the rate of progress may be fixed by the Executive Engineer to suit each case.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff, and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees three hundred in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Executive Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorized to enter into contracts on behalf of Government.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the divisional office copy of the Madras Detailed Standard Specifications and its addenda

volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Vennar Division.

5. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery
(6) Accidents.
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Vennar Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the total of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump-sump amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
Two months ..	.. 10 per cent.
Four months ..	.. 37½ per cent.
Six months ..	.. 60 per cent.
Eight months	.. 75 per cent.
Ten months ..	.. 90 per cent.
Twelve months	.. Cent per cent.

NOTE.—The periods to be entered in column (1) for the purpose of refixing the rate of progress may be fixed by the Executive Engineer to suit each case.

13. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

NOTE.—(1) A further quantity of about 800 tons which has not been classified as yet will also be offered for sale

(2) A detailed list showing the actual quantities in each class will be given to each bidder before the commencement of the sale

2. The wood has been classified according to the classes noted above and intending purchasers are advised to inspect the wood before the sale, as no alteration in the classification will be allowed nor will complaints of any kind be admitted.

3. The various classes have been stored in the sandalwood godown in quantities of 5, 10 and 15 tons for convenience, but the quantities so exposed will not constitute an actual lot for which bids will be accepted. Each class of wood will be offered for sale separately in quantities of 15, 10 or 5 tons or less to suit the convenience of bidders. Bids will be per ton of each class of wood.

The bids shall be advanced in multiples of rupees five per ton and not less.

4. The sale will be subject to confirmation by the Conservator of Forests, Coimbatore Circle, who does not bind himself to accept the highest or any bid.

5. Before being allowed to bid, each intending bidder must pay an earnest money deposit of Rs. 1,000. If paid in cash, immediately before the sale, this should preferably be in the form of Madras notes for Rs. 1,000 or Rs. 500. A receipted treasury chalan for the amount will also be accepted. A cheque may be accepted for the amount at the discretion of the officer conducting the sale.

6. The earnest money deposit of unsuccessful bidders will be returned immediately after the sale is over, and that of successful bidders will be credited towards the first instalment of the purchase price.

7. Each purchaser shall, immediately a quantity is knocked down to him, sign his name at the foot of the sale list, in the column provided for the purpose, and such signature will be held as an admission on his part of his having purchased that particular quantity and of having accepted the conditions of the sale notice. No person will be allowed to deposit and bid jointly at the sale.

8. Immediately the sale is over, each purchaser, if his offer for any definite quantity has been accepted by the Conservator of Forests, will be furnished with a memorandum showing the total amount due from him. He shall remit 25 per cent of this amount less the earnest money deposit, into the Imperial Bank of India at Coimbatore or the Reserve Bank of India at Madras within fifteen days of receipt of the order of confirmation of the sale and another 25 per cent before 28th January 1939 the balance of 50 per cent being paid on or before 3rd March 1939, or against delivery whichever is earlier. Should any purchaser fail to make the necessary remittances by the due dates the money already remitted shall lapse to Government and the District Forest Officer will be at liberty to resell the wood in question at the risk of the purchaser who shall be liable for any loss but shall not participate in any profit which may arise by the resale.

II-4

9. After 50 per cent of the entire sale value has been paid to the credit of the Forest department, delivery of the sandalwood may be made to the purchaser, provided that until payment has been made in full, delivery shall not exceed the quantity paid for, less an amount equal to value to 25 per cent of the full purchase price.

The delivery will be by full lots at a time and no lot will be delivered by portions.

10. On the purchaser's presenting chalans as proof that 50 per cent of the entire sale value has been paid, a proportion of the wood purchased will be weighed in his or his agent's presence and the quantity handed over to him as provided for in condition 9 supra. If, however, proof is produced that the entire sale value has been paid the whole of the sandalwood purchased will be weighed and handed over. The purchaser must take delivery of and remove the whole of the wood sold to him on or before the 15th March 1939

11. The accepted bidders, when deputing their agents to take delivery, must furnish such agent with a power-of-attorney duly stamped and bearing the signature of the person so deputed. A copy of the power-of-attorney must also be sent, to the District Forest Officer by post, with four specimen signatures of the agent. Failing this, delivery may be refused pending verification, in which case the delay will count against the accepted bidder.

12. No further cleaning or classification of sandalwood will be undertaken by the Forest department nor will purchasers be allowed to clean any wood previous to weighment. The classification, cleaning and weighment as determined by the Forest department must be accepted

13. After the wood has once been weighed and handed over, if the purchaser fails to remove all the wood within the roads allowed in clause 10, demurrage will be charged at the rate of Rs. 2 per ton per diem from the last date fixed for delivery until the wood is finally removed.

14. No sandalwood shall be removed from the depot till a permit to remove it, signed by the officer of the Forest department, who delivered the wood, shall have been obtained and till every piece of sandalwood that can be stamped bears the district "sale hammer" mark.

15. The officer conducting the sale shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

16. The purchaser shall bear the cost of taking delivery of sandalwood. The wood purchased by each purchaser shall be in the depot at the purchaser's risk from the date of sale until it is removed.

17. Each intending bidder, unless specially exempt by the Conservator of Forests, Coimbatore Circle, Coimbatore, on an application made in writing at least 15 days before the date of sale must produce a solvency certificate signed by a responsible Revenue Officer of the district in which he resides; and the District Forest Officer holding the sale may refuse to allow any bidder not so exempted to bid beyond the amount guaranteed in such certificates. Bill to be introduced in the Legislative Assembly / Council of the Province of Madras.

Under the proviso to rule 73 of the Madras Assembly / Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

A Bill further to amend the Madras Prohibition Act, 1937, for certain purposes.

Madras Act X of 1937.

WHEREAS it is expedient further to amend the Madras Prohibition Act, 1937, for the purposes hereinafter appearing; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Madras Prohibition (Second Amendment) Act, 1938.

Amendment of section 3, Madras Act X of 1937.

2. In section 3 of the Madras Prohibition Act, 1937 (hereinafter referred to as the said Act) Madras Act X of 1937.—

(i) in clause (19), the word " and " at the end shall be omitted; and

(ii) after clause (20), the following shall be added, namely:—

"; and

(21) any references to a permit generally or to a permit granted under section 18, 19, or 20 shall be construed as including a reference to ao ' Authority ' issued under section 16-A."

Insertion of new section 16 A in Madras Act X of 1937

3. After section 16 of the said Act, the following section shall be inserted, namely:—

Authorities for bona fide religious purposes.

" 16-A. The Provincial Government shall make suitable provision for issuing ' Authorities ' to persons and institutions for the possession and use of such liquor as may be required by them for any *bona fide* religious purpose in accordance with ancient custom, under such terms and conditions, and penalties for infringement, as may be prescribed."

Amendment of section 20, Madras Act X of 1937.

4. In section 20 of the said Act, clause (*b*) shall be omitted and clauses (*c*) and (*d*) shall be relettered (*b*) and (*c*) respectively.

STATEMENT OF OBJECTS AND REASONS

Section 20 (*b*) of the Madras Prohibition Act, 1937 (Madras Act X of 1937) provides that the Provincial Government or any officer empowered by them in that behalf, may issue permits authorizing any person or institution to possess and use any liquor for any religious purpose in accordance with ancient custom. Under this section, rules and forms were prescribed in October 1937 for the issue of permits for the possession and use of wine for Christian religious worship. In November

1937, representations were received from Catholics expressing dissatisfaction with the system of permits and requesting that the Act should be amended so as to provide for the exemption of wine possessed and used for religious purposes from the provisions of the Act in the same manner as liquor used for medicinal, scientific and industrial purposes was exempted from the provisions of the Act. The representations were examined and a Press Communiqué was issued on the 4th December 1937, explaining the distinction in kind between medicinal, scientific and industrial liquors which could not be used as beverage and sacramental wine which might be so used. In order to meet an objection that was raised to the term 'permit' as derogatory to the office and functions of priests, the Government substituted for the system of 'permits' a system of 'authorities' for the possession, issue and use of wine for sacramental purposes. The provision which existed in the old permit for cancellation, without reasons being assigned, was also omitted and it was arranged that authorities should be issued annually to the holders of specified religious offices, that they should cover every successor in the same office during the year, and that they should not in terms restrict the quantity of wine that may be possessed at any time. By a similar authority, it was provided that Bishops might possess sacramental wine in casks or bottles and issue it to priests within their jurisdiction or to any visiting priests of the community for religious purposes. Provision was also made for wine issued under the authority granted to a Bishop being transported under a covering certificate issued by the Bishop himself.

2. It will thus be seen that care has been taken to obviate any possibility of real inconvenience in the matter, but the sentimental objection still seems to remain and further representations have been received requesting the Government to put sacramental wine on the basis of an exemption from the operation of the Prohibition Act. It has been represented that if the issue of 'authorities' is made mandatory by the Act instead of permissive, it would meet the objections felt by the Roman Catholic priesthood. At the same time, there is no objection raised to the provision of checks and rules for the prevention of abuse or neglect. It is also understood that if the provision were entirely dissociated from the permits for beverage purposes with which it is now connected in section 20 of the Act, and embodied in an entirely new section of its own, the objection to the present system, which is largely sentimental, would wholly disappear.

3. The Bill gives effect to the representations mentioned above. Clause (b) of section 20 has been deleted and a new

section 16-A has been inserted. The present Act makes no reference to 'Authorities' as opposed to 'permits.' It is proposed to regularize this by inserting a suitable provision at the end of section 3.
